Congratulations! You have successfully completed the AWS Certified Developer - Associate and you are now AWS Certified.

As a reminder, you are bound by the Candidate Code of Conduct you accepted when taking your exam, and you are expected to keep the contents of the examination secure. If you have any questions or require assistance, please [contact us](#).

Congratulations again on your achievement and the ability to claim the associated benefits, such as access to the AWS Certified [LinkedIn](#) Community, recognition at AWS events, and showcasing your achievement with digital badges and the AWS Certified Logo.

If you have any questions about the AWS Certification program, please [contact us](#) for assistance.

Thank you.

AWS Certified Developer - Associate

Breakdown of Exam Results

The information in the table below details the composition of the AWS Certified Developer - Associate and your performance in each of the exam sections. The table includes the classifications of your performance at each **section level**.

This information is designed to provide general feedback concerning your examination performance. The examination is scored using a compensatory scoring model, which means you do not need to “pass” the individual sections. Please keep in mind that each section has a specific weighting on the examination, so some sections have more questions than others. This information is general in nature, highlighting your strengths and weaknesses.

Meets Competencies: Performance at this level demonstrates knowledge, skills, and abilities expected of a passing candidate.

Needs Improvement: Performance at this level does not demonstrate knowledge, skills, and abilities expected of a passing candidate.

Section	Score Performance		
	% of Scored Items	Needs Improvement	Meets Competencies
Domain 1: Deployment	22%		
Domain 2: Security	26%		
Domain 3: Development with AWS Services	30%		
Domain 4: Refactoring	10%		
Domain 5: Monitoring and Troubleshooting	12%		

Disclaimer: AWS Certification exams are designed to make pass/fail decisions based on the total exam score. Section level results are designed to provide direction on areas where a candidate may be weak. Candidates should exercise caution when interpreting the above section level score information as it is less reliable than the total exam score.
